The screenshot displays the TelNet98 application window titled "TelNet98 / Sample Session - [ALT+F1]". The main terminal area shows system statistics for a "u386" machine, including CPU usage (0% for 2, 10, and 20 seconds) and system information (last 2005 msec activity). A context menu is open over the terminal, and the "Eigenschaften von TelNet98 / Sample Session" dialog box is visible in the foreground.

**Terminal Output:**
